Abstract

The aim of this book is to highlight specific aspects of Greek foreign policy from the conclusion of the Treaty of Lausanne in 1923 to the early 21st century. Special emphasis is given on Greek security problems during the post-Lausanne era, Greece's relations with Turkey and its Balkan neighbors, the Cyprus Question, the

evolution of Greek national claims, as well as understanding Greece's position within the major international organizations: League of Nations, United Nations, NATO, European Union etc. Finally, two chapters of the book examine Greece's relations with Israel and the People's Republic of China during the Cold War era.
