Abstract

This book concerns regulatory framework of the European Internal Market. In particular, the book focus on free movement of goods, persons and services, and analyzes in depth - using the case-law of the European Court of Justice - the dialectics of this free movement

with the member states' law. Additionally, it deals with the rules that concerns the competition and the protection of consumers in European Internal Market. Finally, the powers as well as the means of the European Union to regulate the internal market are examined.
