

## METADATA

**Title:** Optimisation of technical systems

**Other Titles:** -

**Language:** Greek

**ISBN:** 978-960-603-493-0

**Subject:** MATHEMATICS AND COMPUTER SCIENCE

**Keywords:** Optimization / Operations Research / Mathematical Programming

**Bibliographic Reference:** Protopapas, A. (2015). Optimisation of technical systems [Undergraduate textbook]. Kallipos, Open Academic Editions. <http://dx.doi.org/10.57713/kallipos-463>

### Abstract

Introduction to Operational Research. Mathematical formulation of problems and applications and methods of Operational

Research for their solution. Classical optimization, linear, nonlinear, and dynamic programming.
